

RAINY DAY CELEBRATION

22-07-2016

Today the Kabeer Kids of St. Kabeer Academy celebrated rainy day.

The purpose of this program was to celebrate rainy season. This season brings relief from the sizzling summer. In this season atmosphere gets rejuvenated, breeze becomes mild and plant becomes more green.

Students from the classes play group to KG participated. They came in blue coloured dress with small and colorful umbrellas in their tiny hands. We conducted a special assembly and introduced blue colour and rainy season by showing them different objects. Various activities were conducted in their respective classes such as cotton dubbing, thumb impression, flower painting, paper tearing, and lady finger's printing all by blue colours.

After these activities all of them gathered in the playground with their umbrellas and raincoats. They sang, danced and enjoyed in the rain. After all this fun, sweets were distributed to them.
